

ORATOR

ED-015 WALL SPEAKER PAIR

The new Education speakers from **ORATOR AUDIO** feature a simple but elegant design, convenient control positioning, and great features for an economically priced speaker pair. The ED-015 uses a 5" woofer and 2" tweeter in each speaker to produce an incredible 50W RMS of output power.

The speakers feature a built-in bluetooth receiver to enable you to send audio to the speakers from your digital phone, tablet or notebook PC wirelessly from anywhere in the room. A USB & SD card player is also incorporated so that MP3 recordings can be played from your USB stick or SD card. Your MP3 is easily controlled with the Play/Pause, Next Track & Last Track controls on the main panel.

There is also a microphone input socket with volume control if you want to use a cable microphone. Finally, audio can be input from any source using the 2 x RCA sockets mounted at the back of the speaker.

The speakers include brackets for wall mounting, a convenient on/off switch, cabling to connect the 2 speakers and treble, bass and volume controls. An ideal speaker system for any classroom or training room.

FEATURES
