

NUI TEQ CHORUS

Chorus is a fun educational suite of interactive multitouch applications designed to help kids learn while they play! Chorus is the only educational technology software allowing you to divide your touchscreen into independent, personalised zones. Chorus transforms the classroom into a fun, motivating, and engaging active learning environment.

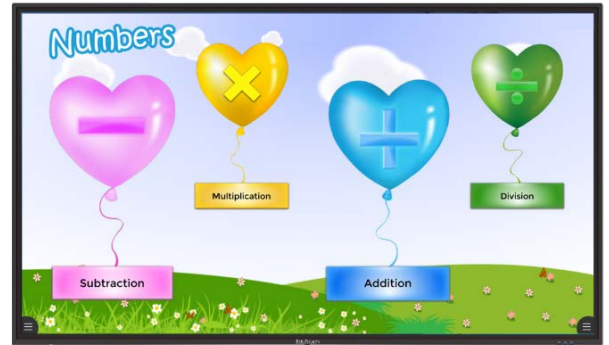

Chorus enables teachers and students to tell engaging, interactive stories that align closely with the curriculum, it provides a safe community for online and small group collaboration, and it allows simultaneous personalised instruction making curriculum relevant to students' lives.

Chorus Supports:

- **BLENDED/FLIPPED**
Activities during class
- **PROJECT-BASED LEARNING**
Create an adventure with Lesson Lists
- **TEACHER PROFESSIONAL DEVELOPMENT**
With online courses and videos
- **LEARNING STATIONS**
For small groups in upright and tabletop settings
- **MULTIPLE MEANS OF PRESENTATION**
Keep slides, websites, videos, and activities always visible
- **STANDARDS ALIGNMENT**
Lessons made for Teachers by Teachers
- **STUDENT VOICE**
Less typing, more formative feedback
- **CONCEPT MAPPING**
Organise relevant content in Nodes
- **PROBLEM-BASED LEARNING**
Supports truly independent inquiry in Zones
- **DIGITAL CURATION**
By teachers and students
- **STEAM LABS, MAKER SPACES**
With active content and mobile creation
- **ACCESSIBILITY**
Guided access, voice recording, dyslexia friendly font, and colour overlays.

- Create custom lessons with dynamic content (images, videos, sounds, text)

NUITEQ CHORUS

For teachers, Chorus also means spending less time preparing and more time working with students.

Smarter Human Interaction means doing more with every touch, and it means minimising the effort of every student to be active learners.

SAVE LESSON PLANNING TIME

Teachers can find standards-aligned Chorus Lessons created by teachers for teachers that they can edit to suit their needs.

DO MORE WITH EVERY TOUCH

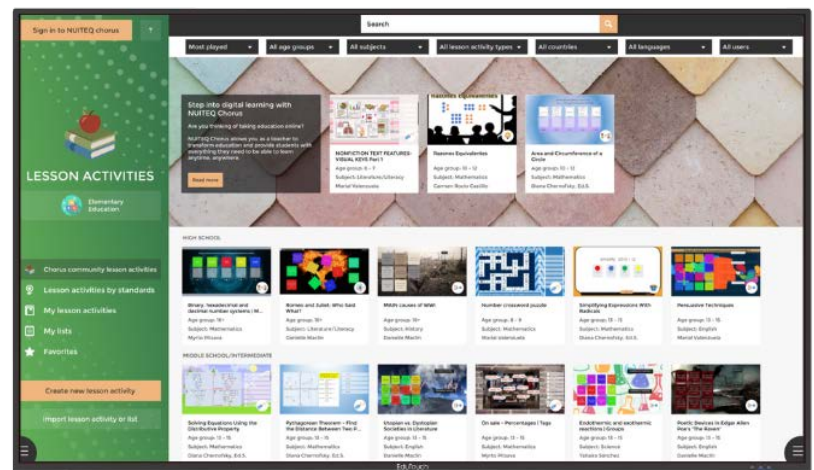

Smarter Human Interaction means doing more with every touch, and it means minimising the effort of every student to be active learners. Save your preferred custom Zones layouts so you can have an entire collaboration station with one single tap. Load a lesson playlist or webpage directly from your home screen.

AI-POWERED TECHNOLOGY

Teachers are empowered with the award-winning AI assistant, designed to supplement their expertise and supercharge the creation of engaging lesson activities.

VIDEO LINKED LESSONS

More and more teachers are using videos to boost student engagement in the classroom. With Chorus, you have access to video-linked lessons that provide hands-on activities aligned with educational standards. These lessons are made by teachers for teachers: by the members of NUITEQ's Global Content Department, but also by teachers all over the world who use Chorus in their classroom. Play the lessons online, on your PC, Chromebook, laptop, or other mobile device or in tabletop mode on a large interactive display.

We believe that Making Education Fun means listening to students and how they want to learn. The student's voice enables authentic dialog and deep reflection but we need Smarter Human Interaction to ensure that more class time is spent on reflecting and active learning.

FUN CONTENT:

Transform quality videos from trusted sources into learning activities and provide multiple ways to learn the material (e.g. Wikipedia, Podcasts) so that every student can succeed.

A SAFE PLACE TO SHARE:

When you answer multiple choice, true/false, and even open-ended questions in a Chorus Poll, students can be anonymous and grades are hidden. Students can share their feelings with emojis and bad words in English and Spanish are filtered out.

DRAFTING AND DESIGN:

Chorus allows multiple students to work simultaneously on the same display with different apps. Capture your personal zone and use it as a collage for markup and presentation.

CREATION ON MOBILE:

Mobile creation is the key to creative self-expression in the classroom. That's why we've made it possible to play every activity and with the online version of Chorus (accessible at Chorus.nuiteq.com). Use images from your camera roll, and record your voice for use inside your lesson.
