

Instructional Suite

One platform for every teaching moment

Skip the platform juggling. Whether you're checking understanding, delivering lessons, or supporting struggling readers, everything happens in one place. The Wayground Instructional Suite puts standards-aligned resources, real-time data, and differentiation tools right where you need them—saving you hours every week.

Your teaching toolkit (no assembly required)

Assessments

Know who needs help before the bell rings

- Find standards-aligned resources or create your own in minutes
- Pick from multiple question types that mirror state tests (because practice should match performance)
- Let auto-grading handle the paperwork while you handle the teaching

Question Types

☒ Multiple Choice

☐ Fill-in-the-Blank

Open ended responses:

☐ Draw

☐ Video Response

☐ Poll

☐ Open-ended

☐ Audio Response

☐ Word Cloud

Mathematics:

☐ Math Response

☐ Graphing

Interactive/Higher-order thinking:

☐ Match

☐ Drag and Drop

☐ Hotspot

☐ Categorize

☐ Reorder

☐ Drop Down

☐ Labelling

Question
Types

Presentations

Turn “eyes up here” into actual engagement

- Build slides that adapt when your third period needs something different than first
- Drop in comprehension checks without breaking your flow
- Add videos, images, and interactive elements
- Every slide automatically includes your preset accommodations

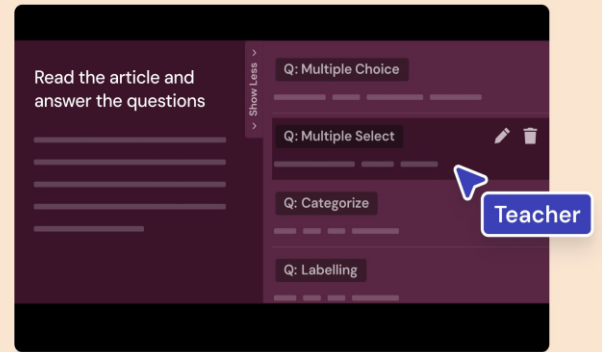

Passages

Provide text and media analysis opportunities

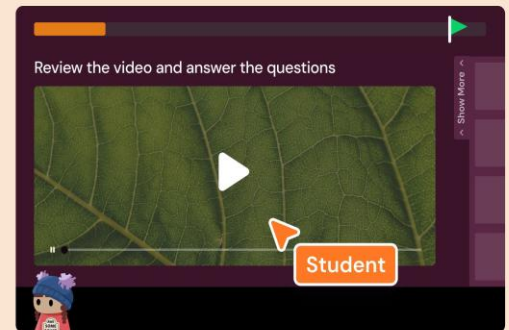

- Attach any article to a question set
- Track whether students actually understand what they're analysing
- Works across subjects (yes, even for those dense science texts)

Videos

Transform watching into active learning

- Add questions at exactly the right moments to check understanding
- Include notes and hints without interrupting the
- YouTube Player for Education means no rabbit holes or inappropriate ads
- Know who watched, who understood, and who needs reteaching

Flashcards

Study tools that actually get used

- Students can practice independently—at their own pace
- Perfect for vocabulary, maths facts, or any content that needs repetition

Built for real classrooms

Differentiation that doesn't mean extra work

- 25+ accommodations built in
- Built-in language support for multilingual learners
- Reading level adjustments
- Multiple learning modalities
- Customisable accessibility support

AI that respects your expertise

- Generate targeted questions from your resources
- Create differentiated versions automatically
- Automatically grade assignments and tests

Data that drives instruction

- Track mastery of standards
- Identify learning gaps instantly
- Group students by level or needs
- Plan targeted interventions
- Share progress with stakeholders

Works with what you've got

Plays nice with your tech stack

- Connect with your LMS
- Import existing materials
- Access from any device

Resources ready to go

- Millions of standards-aligned resources
- Curated by subject and grade level
- Easily customisable

Time back in your day

- Auto-grading and analysis
- One-click differentiation
- Instant feedback
- Automated progress tracking

Join teachers all around the world who've found their way

Stop switching between seven different platforms to get through one lesson. See how the Wayground Instructional Suite can transform your teaching day.
